

# SPEND MORE TIME CLOSING SALES. NOT SEARCHING FOR THEM.

**Accelerate your sales process  
with Voice lead generation.**

## WHAT WE DO

We are professional cold-call prospectors who can help your sales team get their foot in the door quickly. Serving as a transparent extension of your business, we're more than just a lead generation service. We reach out to potential clients and speak with hundreds of purchasing decision-makers every day for the products and solutions you sell.

Your sales team receives confirmed appointments every day with key decision-makers and the account profile information you need to have personalized and relevant meetings.

## HOW WE DO IT

We do what most sales people try to avoid: make cold calls every day to schedule appointments. This allows your sales team to focus on what they do best: interacting with customers and making sales. Because we specialize in lead generation and appointment-setting, we can cover more ground with our state-of-the-art cold-calling systems and dedicated team of professional "cold-callers". We're the set-up team; every week, we find and qualify potential buyers who want to meet with your sales experts.

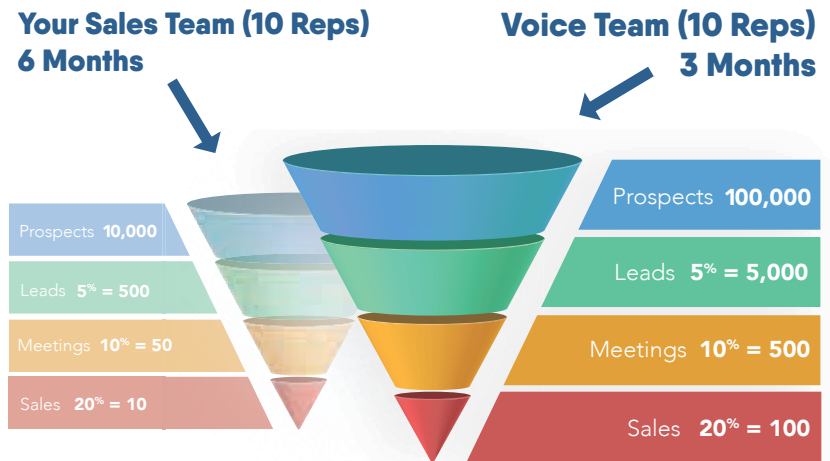

Our lead gen experts average **120 cold calls a day**. Imagine how many more sales opportunities your team will engage in every week when you **increase your cold calling efforts by 400%**.
